Recommendation: Review pricing, discounting, and product-level profitability within the Furniture category to improve profit margins.

Conclusion: The analysis highlights strong sales performance in Technology, California, and 2017, while showing that high sales do not always lead to high profitability. Monitoring profit margins and discounts can help support better data-driven decisions.

01: CATEGORY PERFORMANCE

Technology is the highest-selling category, generating approximately **\$836,154** in sales

02. STATE PERFORMANCE

California is the highest-selling state, generating approximately **\$457,688** in sales and **\$76,381** in profit.

03. YEARLY PERFORMANCE

2017 was the strongest year, recording approximately **\$733,215** in sales and **\$93,439** in profit.

04. PROFITABILITY

Texas generated approximately **\$170,188** in sales but recorded a loss of **\$25,729**, indicating that high sales do not necessarily result in profitability.

05 FURNITURE PROFITABILITY

Furniture generated approximately **\$742K** in sales but had a relatively low profit margin of **2.49%**, indicating that high sales volume does not always translate into strong profitability.
